

## **GREETINGS BAD RIVER!**

Mashkiiziibii Natural Resources Forestry Program was hoping to sponsor an informative evening session this past April to educate the community on signs, symptoms, and recommended action regarding Emerald Ash Borer. Unfortunately, we had to cancel because of Covid-19.

Please view the following presentation provided by one of the experts that had agreed to visit. Mr. Paul Cigan tells what to look for in respect to Emerald Ash Borer with signs and symptoms of infestation. It's very important that you report any suspicious trees to Mashkiiziibii Natural Resource's Forestry Program.

We want to know as soon as possible about any EAB presence so that we can respond accordingly. Thank you for your love of the forest and especially Bad River Forest!!
