

Swim Advisory

Area beaches are routinely monitored for the presence of bacteria in the water.

The most recent water samples were collected on Monday, August 10th, 2020. As of **Tuesday, August 11th, 2020** we are issuing a **Code RED Swim Advisory** for the following beach:

Waverly Beach

Swimming at this beach during this advisory period should be avoided until further notice.

Advisory remains in effect until samples are below the water quality criteria.

Further sampling at this site is scheduled for **Wednesday, August 12th, 2020**.

*Attachment may be posted in your community building for the public.
