The Bad River Tribal Council, acting proactively in the best interests of its residents, recently issued directives mandating the wearing of face coverings, outlining its quarantine policy, and detailing the key points and amendments to its disorderly conduct code.

All of this, of course, was prompted by the ever-present threat of the COVID-19 pandemic which has plagued the world population since the beginning of 2020.

The Tribal Council has been quick to act since March 17, when Chairman Mike Wiggins, Jr. and the Bad River Tribe declared a Public Health Emergency (State of Emergency).

And Tribal Council actions and policies, along with the cooperation of Reservation residents, has paid dividends. Since then, as of this morning August 19, there still has not been a positive case of COVID-19 on the Bad River Reservation.

Meanwhile, around the State of Wisconsin, there have been 66,830 positive cases reported and 1,052 deaths due to COVID-19. And at the top of Wisconsin, in the four-county area of Ashland, Bayfield, Iron and Douglas there have been 389 positive cases reported and three deaths.

On Monday, July 20, Chairman Mike Wiggins, Jr., representing the Tribal Council and the Bad River Health and Wellness Center, issued an advisory announcing the requirement to wear face coverings at all Tribal buildings and enterprise areas. (See Pages 2-4).

Ten days later, on July 30, Wisconsin Gov. Tony Evers declared a Public Health Emergency and issued an order mandating the wearing of face coverings when someone is indoors, except when they are in someone else’s home.

“This was an extremely thoughtful and medically sound decision,” said Tina Gerovac-Lavasseur, Bad River Public Health Nurse. “I think this decision just demonstrates how Bad River is being proactive to ensure that the community is able to combat the virus with all available resources.”

On Monday, August 10, Gerovac-Lavasseur sent an advisory which outlines the Isolation/Quarantine Order for the Bad River Community (See Pages 5-9), and the Tribe’s disorderly conduct code, with amendments (See Pages 10-12).
Tribal face-covering requirement

Bad River Public Health Release
New tribal wide face mask, Face Shield,
Face Coverings Requirement

Effective Immediately, Bad River Public Health is issuing a Tribal wide face mask, face shield, face coverings requirement.

This requirement applies Tribal wide to: All Tribal Buildings and Tribal Enterprise Areas

- everyone age 5 and older wear a face covering or mask when in any and all Bad River buildings and transportation vehicles, where others are present. We recognize this is not a standard infection prevention, however, we find ourselves in extraordinary times and given current circumstances, this requirement is necessary.

- Per the requirement, individuals must wear a face covering that covers their nose and mouth when in the public areas of the Tribal work settings (Hallways, restrooms, commons areas), waiting in lines, and while on public transportation, or are in places where the six feet of social distancing isn’t possible. Pam Feustel, Bad River Public Health Nurse, states that “social distancing and wearing masks are going to be our most effective tools in slowing the spread of COVID and keeping our community safe.”

- If someone is unable to wear a mask or face covering due to a medical condition or disability, please ask that Tribal Office or business for reasonable accommodation. For Tribal Employees seeking an exemption, please check with your immediate supervisor, and consult with public health. Children age 2 through 4 are highly encouraged to wear masks in public, children 5 and older are required to wear masks. If your child is not able to wear a mask, please plan ahead and avoid public areas referenced in this memo.

Masks will be available at the entrance of each building. They will be issued at the start of each shift, and continued to be worn throughout the day. If
employees are at their work station/desk and are able to social distance (6ft), it is not required to keep the mask on. In the event that the mask becomes visibly soiled, saturated, or damaged, a new mask must be obtained. We ask all personnel to make every effort to help preserve the supply of PPE and reduce the need for replacement masks whenever possible. In place of a procedural face mask, simply wear a bandana, scarf, or neck gaiter around your nose and mouth. Or you may create a cloth face covering by either sewing one or using a no-sew method on the CDC website. Medical-grade surgical masks or N95 respirators are not required or necessary for general public use. Please see attached procedure on how to Don (apply) and Doff (remove) a face mask.

In addition to wearing a mask, these actions will help protect yourself and others from COVID-19:

- **Stay home if you are sick or feel off.**
- **Stay home if you do not need to go out.** Working from home, virtual gatherings, and using curbside or delivery ordering are still the safest and best options to protect yourself and others.
- **Stay 6 feet from other people.** Respiratory droplets are in the air when other people cough, sneeze, talk and breathe. Staying 6 feet from others will lower the chances of you coming in contact with the virus from those droplets.
- **Assume you have come in contact with COVID-19 if you go out.** Watch for symptoms like fever, cough, shortness of breath, fatigue, body aches, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea. If you have these symptoms, call your doctor to be tested.

(Continued from Page 3)

**Infection Prevention Guidance on Donning and Doffing Face Masks**

To Doff (remove) face mask with intent to reuse:
1. Perform hand hygiene
2. Remove mask (remove procedure mask by holding the ear loops. The front is contaminated so remove slowly and carefully.)
3. After removing face mask, visually inspect for contamination, distortion in shape/form. If soiled, torn, or saturated the mask should be discarded.
4. If the face mask is NOT visibly soiled, torn, or saturated, carefully store on a paper towel, or in a bag, exterior side down.
5. Perform hand hygiene.

To Re-Don (apply) Mask:
1. Perform hand hygiene
2. Grasp Mask (pinch procedure mask at the ear loops)
3. Place over face (secure ear loops behind the ears. Secure mask)
4. Perform hand hygiene

A disposable face mask can be worn throughout your shift if not visibly soiled, torn or saturated, and NOT touched while delivering patient care.
Isolation/Quarantine Order for the Bad River Community

Isolation/Quarantine Order for the Bad River Community

This Order outlines the Bad River Community’s overall approach of how quarantine and isolation status is applied during the COVID-19 public health emergency. The Tribe has authorized the enforcement of isolation and quarantine orders for communicable diseases, like COVID-19, under Chapter 146 - Disorderly Conduct of the Tribal Court Code.

The Tribe reserves the right to modify this order or actions taken under it at any time based on with developing guidance and best practices for COVID-19. Additionally, while this Order outlines the overall approach, specific directions may differ as appropriate based on medical conditions.

DEFINITIONS

- Close Contact: A person is considered to be a close contact of a person who tested positive for COVID-19 if they met any one of the following scenarios:
  1) Did you have direct physical contact with the person (e.g. hug, kiss, handshake)?
  2) Were you within 6 feet of the person for more than 15 minutes?
  3) Could the person have had contact with any of your respiratory secretions (e.g. Coughed/sneezed on, contact with dirty tissue, sharing a drinking glass, food or towels or other personal items).
  4) Did you stay overnight for at least one night in a household with the person (i.e., household contact)?

- Indirect Contact: A person is an indirect contact if they have prolonged (15 minutes or more) contact with someone who is not positive, but is considered as having close contact (as defined above) to a person who tested positive for COVID-19.

- Household contact: Any person who lives in or spent at least one night in the house of a person who tested positive for COVID-19 during the infectious period.

PERSONS UNDER QUARANTINE OR ISOLATION ORDERS

NOTE: Persons who are under quarantine orders due to a positive COVID-19 test are not released from quarantine until they receive documentation from Public Health Director discharging them from the quarantine order. This Order provides guidance on when such a discharge from quarantine typically occurs.

Persons who tested positive for COVID-19:
Persons (both employees and non-employees) who tested positive for COVID-19 will be quarantined. If the person is under the Tribe’s jurisdiction, they will be quarantined per Chapter 146 - Disorderly Conduct of Tribal Court Code.

If the person is outside of the Tribe’s jurisdiction, a quarantine recommendation will be issued. The local public health authority where they live in may issue additional isolation/quarantine requirements.
If a person is tested at a site other than the Bad River Health & Wellness Center, the person shall inform Public Health at 715-682-7133 #4344 or 715-292-7368 of their test date and medical documentation.

All persons who test positive will be contacted by contact tracers to identify who else may have been exposed to COVID-19. Persons who tested positive shall provide all information to the contact tracer to include past travel, symptoms, and who they were in contact with.

Quarantine will be discontinued once the person with the positive case meets the following:

- 10 days have passed since symptoms first appeared or the positive COVID-19 test result AND
- You have had no fever for at least 72 hours (that is three full days of no fever without the use medicine that reduces fevers) AND
- All symptoms have resolved (for example, when your cough or shortness of breath have resolved) AND
- If testing is not completed at the BRHWC, the community member must provide a certification of clearance from a qualified health provider. The result must be given to Public Health at 715-682-7133 #4344.

Employees will require medical authorization clearing them to return to work.

Household Contacts of a person who tested positive for COVID-19:

Household contacts will be subject to an isolation or quarantine order. If the household contacts are under the jurisdiction of the Tribe, they will be isolated or quarantined per Chapter 146 - Disorderly Conduct.

If the household contacts are not under tribal jurisdiction, an isolation/quarantine recommendation will be issued. Their local public health authority may issue additional isolation/quarantine requirements. All employees of the Bad River Tribe are required to report instances when members of their household are confirmed COVID-19 positive to Public Health.

All persons in a household of someone who tested positive will be contacted by contact tracers to identify who else may have been exposed to COVID-19. Persons in the household of someone who tested positive shall provide all information to the contact tracer to include past travel, symptoms, and who they were in contact with.

Isolation/quarantine of the household contacts will be discontinued once the person meets the following:

- 14 days have passed since the person in the household was released from quarantine.
  - NOTE: For people who continued to live in the same house, this 14-day timeframe begins at the end of the quarantine period for the person who
tested positive (when they are released). This requirement is due to the fact that persons living with the infected person could be infected throughout the entire initial quarantine period when the person was infectious.

- NOTE: For people who do not continue to live in the same house (such as if they were a visitor for one night or the infected person is separated into an entirely separate area such as self-contained basement, camper, or cabin), then this 14-day period is begins as of the date of last contact with the person who tested positive. Public Health will need to accept that the separation is adequate in order to allow tracking under this provision.

And
- You do not develop symptoms (Fever, cough, shortness of breath, sore throat, muscle pain, loss of taste or smell).
- If symptoms develop during the 14-day period, you must report symptoms to Public Health (715-292-7368) and contact your primary care provider.

Employees will require medical authorization clearing them to return to work.

People who have Close Contact with a person identified as having COVID-19 or those who had Close Contact (2 days prior or less) to a person who later tested positive for COVID-19.

Employees who had close contact with a person known to have COVID-19 shall notify Public Health of the close contact and isolate themselves in their home. Contact tracers will interview those with close contact to confirm the contact. If the contact is confirmed, those with close contact will be tested for COVID-19. If the results are positive the person will follow the guidance for Persons who tested positive for COVID-19. If the results are negative, the person will require to isolate themselves in their home for 14 days from the date of close contact with the person who tested positive or a negative test result is received. Employees will require medical authorization clearing them to return to work.

Non-employees who had close contact with a person known to have COVID-19 shall notify Public Health (715-292-7368 or 715-682-7133) of the close contact and isolate themselves in their home. Contact tracers will interview those with close contact to confirm the contact. If the contact is confirmed, those with close contact will be tested for COVID-19. If the results are positive the person will follow the guidance for Persons who tested positive for COVID-19. If the results are negative, the person will require to isolate themselves in their home for 14 days from the date of close contact with the person who tested positive or until a negative test result is received.

All Close Contacts- While in the 14-day isolation, all persons shall isolate themself at home and monitor themselves for symptoms. The person shall limit travel outside of the home to those trips that are absolutely necessary for food and supplies. The person shall wear a mask when making those trips and limit exposure to others in the household. The person should contact the clinic at 715-682-7133 if they develop symptoms. If symptoms become severe or life-threatening they should call 911 or go to the Emergency Room.
Close Contacts are released from isolation if they do not develop symptoms within the 14-day period while potentially infectious or a negative test result is received.

PERSONS WHO NEED TO MONITOR HEALTH CONDITION

People who have Indirect Contact with a person identified as having COVID-19 or those who had Indirect Contact (2 days prior or less) to a person who later tested positive for COVID-19.

Employees who had indirect contact with a person known to have COVID-19 shall notify Public Health of the indirect contact. Contact tracers will interview those with indirect contact to confirm the contact was not close contact. If the contact is confirmed as indirect, the person will be required to test for COVID-19. If the results are positive the person will follow the guidance for Persons who tested positive for COVID-19. If the results are negative, the person will be cleared for work, but shall monitor themselves for symptoms and notify Public Health if symptoms appear.

Non-Employees who had indirect contact with a person known to have COVID-19 will be offered a COVID-19 test. If the results are positive the person will follow the guidance for Persons who tested positive for COVID-19. If the results are negative, the person shall monitor themselves for symptoms and notify their primary care provider if symptoms appear.

SELF-ISOLATION REQUIRED PENDING FURTHER DIRECTION

Persons who have symptoms of respiratory illness (fever, cough, shortness of breath, sore throat, muscle pain, loss of taste or smell).

Employees who have symptoms of respiratory illness such as Fever, Cough, shortness of breath, sore throat, muscle pain, or loss of taste or smell shall isolate themselves at home and contact Public Health. The employee will be required to meet with primary care provider to be screened for testing for COVID-19 or may be required to complete a 14-day isolation of which the last 3 days must be asymptomatic based on medical direction. Employees will require medical authorization clearing them to return to work.

Non-employees who have symptoms of respiratory illness such as Fever, Cough, shortness of breath, sore throat, muscle pain, or loss of taste or smell shall isolate themselves at home and contact BRHWC or primary care provider.

GENERAL GUIDANCE

Community members who have a different scenario than listed above, or have a concern about COVID-19:

Everyone should monitor themselves for symptoms of illness, limit travel, and practice social distancing. Social distancing means staying 6 feet or more away from others. If a community member has concerns or questions about COVID-19, they can call Public
Health at 715-682-7133 for more information on COVID-19.

If the person starts experiencing symptoms of respiratory illness (fever, cough, shortness of breath, sore throat, muscle pain, loss of taste or smell) they should call the Bad River Health & Wellness Center Triage line at 715-682-7133 or their medical provider.

**Contact Tracing**

The Tribe’s Public Health Department is functioning as a tribal public health agency for this COVID-19 public health emergency. As COVID-19 is a communicable disease, this means the Tribe needs to identify people who have been in contact with a person who tested positive for COVID-19 as those contacts were exposed to the disease.

Contact Tracers are required to keep the identification of a person who tested positive for COVID-19 private as they contact other people who may have been exposed. Contact tracers will not confirm, deny, or disclose the identity of someone who tested positive to those they are contacting. The individual who tested positive may self-disclose their status.

Contact tracers may through the interview process, identify someone as having contact with a person who has tested positive for COVID-19. Contact tracers will identify the person as being a household contact or having close contact or indirect contact. If a person (both employee or non-employee) is identified as having a contact with person who tested positive for COVID-19, they must follow the guidance in this Order that matches their level of contact. If the contact level is not clear to the contact tracers, but contact exists, the person will be considered as having close contact.

The Tribe, as part of its workplace-related medical surveillance order for COVID-19, refers all employees for testing if they are identified as a household or close contact through contact tracing. Based on this referral, Public Health will inform the Tribe’s HR and/or Public Health Departments of test and quarantine/isolation status of employees.

The following are the normal types of questions that contact tracers ask people as part of the contact tracing process. Both the Primary person (person who tested positive for COVID-19) and other people identified as potential contacts are contacted.

1) Name  
2) Date of birth  
3) Sex  
4) What is your occupation and name of workplace?  
5) Are you in close contact with other people while you are at work?  
6) Do you work in a health-care, long-term care facility, or a setting that serves elderly?  
7) Where do you live?  
8) Who else lives with you?  
9) Where do the others in your household work?  
10) What date did symptoms first occur?  
11) What symptoms have you experienced?  
12) Did you have a COVID-19 test? If so, when? Where were you tested, what were the results?  
13) Have you had close contact with other community members who are not in your household over the last 14 days prior to onset of symptoms? If so, who?
Disorderly Conduct Code

Bad River Tribal Court Code
Chapter 146 – Disorderly Conduct Code

relating to: disorderly conduct code title, statement of purpose and definitions, enforcement and penalties.

an amendment relating to: Public Health Quarantine Order dated August 6, 2020 enforcement; and
an amendment relating to: applying the Public Health Release dated July 20, 2020 regarding face coverings and masks to public or business space and outdoors where unable to maintain physical distance and enforcement.

Chapter 146 of the Bad River Tribal Court Code is created to read:

Section 146.01 Title, Statement of Purpose and Definitions.

A. Title. This Code may be cited as the “Disorderly Conduct Code.”

B. Statement of Purpose. The purpose of this Code is to:

1. Eliminate offensive behaviors and maintain peace within the Bad River community;
2. To hold violators accountable for their actions;
3. To promote health, safety, and well-being to anyone within the boundaries of the Bad River Reservation.

C. Construction. This Chapter shall be liberally construed to effect the purposes stated above and shall be interpreted to comport with the customs and traditions of this Tribe. If Tribal Law, customs, or traditions are inconclusive in any matter arising under this chapter, then other Tribal Law, Federal Law, and as a last resort, the law of the State of Wisconsin, may be used for guidance.

D. Definitions. As used in this Chapter the following terms shall have the meanings given below:

Disorderly Conduct

Any person subject to the jurisdiction of the Bad River Reservation who is found, by a preponderance of the evidence, to have engaged intentionally in any of the following behaviors on the Reservation, knowing, or having reasonable grounds to know that such behavior will, or will tend to alarm, anger or disturb others or provoke an assault or breach of the peace, is guilty of disorderly conduct, which is a civil misdemeanor, and is subject to a fine.

(Continued on Page 11)
I. Disorderly Conduct means:
   a) Engaging in brawling or fighting; or
   b) Disturbing a lawful meeting or assembly of persons without lawful authority; or
   c) Engaging in offensive, obscene, abusive, or abusive conduct tending to
      reasonably arouse alarm, anger, or resentment in others or uses offensive,
      obscene, or abusive words which by their very utterance, inflict injury or tend to
      incite and immediate breach of the peace; or
   d) Blocking vehicular or pedestrian traffic without lawful authority; or
   e) Preventing the free ingress or egress to public or private places without lawful
      authority; or
   f) Making a false report or warning of a fire, impending explosion or other
      catastrophe in a place in which such an occurrence would endanger human life; or
   g) Appearing in a public or private place in an intoxicated and disorderly condition;
      or
   h) Creating a disturbance, while hosting or attending celebration, so as to disrupt the
      peacefulness of the neighborhood or community through loud noises and/or fights
      or other obnoxious behavior, or
   i) Playing his/her music from any car, house or music player so as to create a
      disturbance to the neighbors or community members, between the hours of 10:00
      p.m. and 8:00 a.m. Creating a disturbance or disrupting the peace shall be
      determined by the enforcement officer(s) from the complainant’s location, or shall
      be determined using a decibel meter reading of 90-95 dB, or be determined by
      whether the noise can be heard from a distance of 500 feet or more from the
      disturbance.

   an amendment relating to: Public Health Quarantine Order dated August 6,
   2020 enforcement

j) Public Health Emergency in Response to the SARS – Cov – 2 virus.
   Quarantine. If the Public Health Nurse reasonably believes or is informed of
   the existence of COVID – 19 infection, the Nurse shall immediately
   investigate and make or review the diagnostic report of a physician, the
   notification or confirmation report of a patient or a parent or caretaker of a
   patient and quarantine, isolate, require restrictions or take other action
   pursuant to the Public Health Order dated August 6, 2020.

   an amendment relating to: applying the Public Health Release dated July 20,
   2020 regarding face coverings and masks to public or business space and
   outdoors where unable to maintain physical distance and enforcement.

k) Public Health Emergency in Response to the SARS – Cov – 2 virus. All
   persons age 5 and older shall wear a mask or other face covering or mask
over their nose and mouth when in the following situations: inside any public or business space; and while outdoors in public spaces and unable to maintain a 6 – foot distance between individuals.

Section 146.02 Enforcement.

A. The Tribal Police shall have the authority to investigate any disturbance on the Reservation. Upon reasonable suspicion, which may be based on the complaint of another person, that any person subject to the jurisdiction of the Bad River Reservation is engaging in or has engaged in disorderly conduct as defined in section 146.01D. of this chapter, the Tribal Police shall determine whether a citation according to Section 146.03 of this chapter shall be issued.

B. As used in this section, “Reservation” means lands owned or held in trust for the Bad River Tribe.

C. Nothing contained in this section shall be construed as a waiver of sovereign immunity of the Bad River Band of Lake Superior Chippewa.

An amendment relating to: Public Health Quarantine Order dated August 6, 2020 enforcement

D. The Tribal Police shall have the authority to execute the Public Health Order dated August 6, 2020 and a Public Health Nurse quarantine, isolation, restriction or other action if the quarantine or other restriction is violated, including removing a person to a designated place.

Section 146.03 – Penalties.

Any person who violates this Chapter shall be subject to the following:

A. A civil forfeiture not less than $50.00 but not to exceed $500.00 for the first offense; and/or

B. A civil forfeiture not less than $100.00 but not to exceed $1000.00 for a second offense within a five (5) year period; and/or

C. A penalty other than those stated above as deemed appropriate by the Court, to be determined on a case-by-case basis.
NEW EMPLOYEE: WELCOME, CAROL NICKEL

Her life is filled with children at home & work

By Richard J. Pufall
For the Bad River Band

Carol Nickel probably knows more about children than most people do, and not just because her new title at the Bad River Health and Wellness Center is, “Maternal child health nurse/clinic nurse.”

You see, Carol has 10 children of her own and is excited to soon welcome her 15th grandchild. She started her new position with Bad River on June 16 and many might think that with 25 children on her family resume, she needs a rest more than a job.

But not Carol. See loves both roles; at home and in the office.

She was born in Monroe, Mich., but moved to Ironwood when she was 12. She is a graduate of Ironwood Catholic High School and Gogebic Community College where she received her degree as a registered nurse.

She said the majority of her work experience has been in, “labor/delivery/postpartum/newborn nursery.”

Carol has also worked as a prenatal class instructor, immunization coordinator, in women’s health and clinic nursing. She said her job duties include, “coordinating with expectant and new mothers to help provide available teaching and resources to help give support and guidance.” She came to the Health and Wellness Center as a replacement for Jennifer Ludack. “I enjoy meeting people in the community and sharing/teaching from experiences that might help someone else,” Carol said. “My greatest challenge is gaining the trust of the community as a whole and learning about which services and resources are open to the clients.”

She said her average day, is working in the clinic setting, “trying to reach out to community members to offer my services.”

Public Health Nurse Pam Feustel is Carol’s supervisor for maternal child health, with registered nurse Robin Belsky “on the clinic side.” Overall, she reports to Randy Samuelson.

And surprisingly, her family provides her No. 1 leisure-time activity.

“I love spending all free time with my children and grandchildren,” Carol said. “I have a farm in Saxon and enjoy raising animals and relaxing in the country. Hunting, fishing boating, leisurely.”

But as busy as she is, she wants to immerse herself in her new environment, as well.

“I am looking forward to becoming part of the Bad River community and would like to learn about the teachings and traditions,” Carol said.

Newborns, of course, are of special interest to her. And she plans to offer “Safe Sleep” information to Bad River residents.

“I think we would all agree that we want all babies to sleep safe,” Carol said. “That is why I’m looking forward to sharing some important information about ‘Safe Sleep.’ Look for us at the Health Fair on August 26 and please continue to watch for more information and tips in upcoming issues of this newsletter.”

Send email to Richard J. Pufall at Newsletter@BadRiver-nsn.gov

‘Sleep Baby Safe,’ will be a regular feature for you

For the Bad River Band

We want all babies to sleep safely. Each year, more than 3,500 U.S. infants die suddenly and unexpectedly. Many of these deaths occur in an unsafe sleep environment.

The Bad River “Sleep Baby Safe” program is actively working to develop tools to enhance local efforts to promote a consistent and clear safe sleep message and other resources for professionals working with families and our community members.

The goal of this initiative is to teach all families to follow the ABC’s of infant safe sleep: alone, on their back, in a crib or Pack ’n Play, and in a smoke-free environment.

We look forward to sharing information bimonthly with all community members on our “Sleep Baby Safe” program through this and future publications.

— Carol Nickel
First county death sends a message

As of this writing there have been nearly 800,000 deaths related to COVID-19, the coronavirus, around the world. Of those, more than 170,000 have died in the United States and 1,000-plus in Wisconsin.

We have been watching, counting, and fearing those numbers since this nightmare began in late January. Our daily lives are filled with news of sickness and death. But until recently, death was a statistic for those poor souls living somewhere else, in COVID-19 hotbeds like Florida, California and Texas. Yes, we took notice in April when Bayfield and Iron counties each suffered one death.

But that wasn’t Ashland County. Then on Tuesday, Aug. 4, suddenly it was, with the first reported COVID-19 death in the county.

Out of respect for the individual and the families involved, the Ashland County Health and Human Services Department did not release the name or town of residence for the deceased. But it was one of us and we have suffered the loss of a neighbor. And this COVID-19 victim was, to someone, a beloved family member and friend and not a statistic.

“'It is with great sadness that we announce that one of Ashland County’s community members has passed away from complications associated with COVID-19. We extend our deepest sympathies to the family, friends, and community,” said Elizabeth Szot, Health Officer.

By Richard J. Pufall
For the Bad River Band

We must continue to listen, to continue to inject those words into our daily, routine actions.

And it would be a mistake to look upon this “first” Ashland County COVID-19 death as “just” one or “only” one. Sure, this was inevitable. If you’ve been paying attention for the last six-plus months, this death was no surprise. But if it didn’t hit you hard, it should have.

So, we must honor the memory of this person by redoubling our efforts and resolve to follow those “safer practices.” We cannot become cavalier about doing the right thing.

Of course, COVID-19 isn’t the only area where some of us gamble with our health and walk on the fringes of the wild side. Some of us drink too much. Some of us smoke. Some of us eat too much. Some do hard drugs.

Doing harm to ourselves is one thing but harming others by failing to follow CDC guidelines is selfish and inexcusable. COVID-19, clearly, is Public Enemy No. 1, but also high on the list are ignorance, selfishness and impatience with this crippling change to our lifestyles.

You see, as our health professionals have told us so often, COVID-19 is in our area and is likely to be spread by individuals who do not even know they are ill. So, it is critical that all Ashland County residents take social distancing seriously and follow Emergency Order No. 1 requiring the use of face coverings.

Right now, we don’t have the magic bullet of a vaccine to throttle this virus. And when/if we get such a vaccine, it could be a long time down this rocky road. So, face coverings, social distancing, and staying home are some of the only tools we have to prevent the spread of COVID-19 in our county.

If you are among those who believe that following these guidelines is a violation of your personal liberties as an American, please understand this:

‘Not everything is about you.

COVID-19 hits close to home

First death in county sounds alarm

By Richard J. Pufall
For the Bad River Band

As of this morning, August 19, COVID-19 has claimed the lives of 774,032 people around the world. Of those deaths, 170,146 have been in the United States. And 1,052 have died in Wisconsin.

So, one more death should not have come as a surprise. It should not have been a shock.

But it was. You see, this death came in Ashland County.

On Tuesday, Aug. 4, the county reported its first death from complications of the coronavirus.

Pam Feustel and Tina Gerovac-Lavasseur, have dealt with sickness and death in their careers as public health nurses for the Bad River Health and Wellness Center, but the first COVID-19 death in Ashland County was received with great concern and sadness. It could never be, just business as usual.

“First and foremost we want to extend our deepest sympathies to the family of the deceased,” Feustel said. “This is never easy news to receive, and when it comes to the COVID pandemic that is the last thing we want to see is a death or the death number to increase.

“This has not really changed how we do our work here at Bad River. We continue to be vigilant and educate the community. We want to do our best to be sure that everyone remains COVID free.”

And to date, that vigilance has paid dividends. After nearly seven months since the first positive case of COVID-19 was reported in Wisconsin on February 5, there has still not been a positive case on the Bad River Reservation. But that first death in Ashland County did have a profound impact on the Tribe.

“I believe it has people worried,” Gerovac-Lavasseur, said of that first death. “This is very close to home and it’s hard not to think about. What we can do is remind everyone to continue to follow the guidelines.”

Meanwhile, also close to home, on Wednesday, Aug. 12, the Red Cliff Community Health Center reported its fourth positive case of COVID-19. The new Red Cliff patient boosted Bayfield County’s total of positive cases to 39, an increase of 18 since August 5.

The Wisconsin Department of Health Services on Saturday, Aug. 8 reported 1,165 new cas-
es of COVID-19, the most in a single day. That broke the previous record of 1,117 positive cases that was reported on Tuesday, July 21. “It is difficult to say what may have caused the spike,” Feustel said. “The mask mandate was not in place yet, and there were/are still individuals traveling. While this may be part of the issue, it is difficult to pinpoint exactly what it could have been.”

Despite the fact that positive cases and deaths are on the rise in Wisconsin, the picture is not completely bleak. “There have been several counties around us that are now reporting a downward trajectory.” Gerovac-Lavasseur said. “We are hopeful this will continue to be the pattern.” However, as this pandemic nears seven months, with no end in sight, it would not be surprising to see some people become discouraged and depressed. The Health and Wellness Center has been mindful of this situation. “We have tried to be very proactive in regard to this issue,” Feustel said. “We have provided community fliers with different options for people who may be feeling down and or discouraged. With the change in the way we operate from day to day, it is very normal to be experiencing these types of feelings.”

Since August 5, positive cases of COVID-19 have increased from 20 to 30 in Ashland County; 21 to 39 in Bayfield; 72 to 90 in Iron and 139 to 230 in Douglas. Through it all, Tribal members have been as patient as anyone could expect but, of course, they have had questions for their health professionals as COVID-19 lingers and remains ever-present. “I think the question that is often asked is, ‘When will we be able to go back to normal,’ ” Gerovac-Lavasseur said. “As of right now, there is unfortunately no answer to that question. What we can do is be patient and follow the recommend guidelines to slow the spread of the virus. Hopefully, in time, we will be able to find a sense of what our ‘new normal’ will be.”

Tribal Mission Statement:
To work toward a more progressive, financially stable government; to maintain Tribal Sovereignty; and enable members to progress individually, toward a more fulfilling life culturally, spiritually, and economically.

‘Mino-dibishkaan’ to our Elders
Taking the cake in September

(Our apologies if we’ve missed someone. Please let us know).
Return to school information

Memo

To: Bad River Tribal Community within the School District of Ashland Service Area
From: Stephanie Julian, Bad River Education Director
Date: August 13, 2020
Re: Return to School Information – Fall 2020

The Bad River Tribal Council, Administration, Education Dept. and JOM Committee have been actively engaged in planning for back-to-school. We firmly recognize the stress and uncertainty caused by these unprecedented times.

At the end of July, the School District of Ashland unveiled a plan for K-12 for the 2020-2021 school year. The Bad River tribe encourages community members to weigh all options and strongly consider the virtual option.

Although our community is extremely resilient, we also recognize that our Nation is comprised of elders and mixed generational households. Additionally, tribal rates of diabetes and other glaring health disparities are disproportionately higher than in most other communities. These combined factors increase our communities’ vulnerability to Covid-19.

For families that choose the virtual school option within the School District of Ashland, the tribe has allocated Covid-19 Cares Act Funding to provide each tribal family with school-aged children with internet/broadband access for the 9-month school year. Additionally, the $25.00 insurance fee associated with the School District of Ashland chrome books will be covered for all Bad River tribal students.

This week the council formally requested consultation with the School District of Ashland to clarify many concerns emanating from the 2020-2021 School District back to school plan. As more information is obtained, the Bad River Education Department and JOM Committee will work with the Tribal Council to provide further recommendations to support all Bad River students. Additionally, the Bad River Education Department, Youth Services Department and JOM Committee has begun contacting Bad River families to hear more about their plans and concerns. If no one has reached out to you by Wednesday, August 19th, 2020, please contact Stephanie Julian at (715) 682-7111 ex. 1530 or (715) 685-4172). Please stay tuned for further guidance on internet/broadband and supportive services.

We acknowledge the importance of education and the need to provide assurance and safety for our students and families during these trying times.

Weweni
First COVID-19 death reported in Ashland County

ASHLAND COUNTY
HEALTH & HUMAN SERVICES DEPARTMENT
630 SANBORN AVENUE • ASHLAND, WISCONSIN 54806

E-mail: achsd@co.ashland.wi.us

FOR IMMEDIATE RELEASE
August 4, 2020

Contact: Elizabeth Szot, Health Officer, elizabeth.szot@co.ashland.wi.us, 715-682-7028 ext 113

Ashland County Public Health today confirms the first death of an Ashland County resident, associated with COVID-19. Out of respect for the privacy of the individual and their family, we will not be disclosing any additional information.

"It is with great sadness that we announce that one of Ashland County’s community members has passed away from complications associated with COVID-19. We extend our deepest sympathies to the family, friends, and community," said Elizabeth Szot, Health Officer. "We continue to face extraordinary circumstances and continue to urge everyone that this virus is real, it is deadly, and we must continue to follow safer practices including the use of face coverings and social distancing. We are in this together, and together we will overcome these challenges."

COVID-19 is in our community and is likely to be spread by individuals who do not even know they are ill. It is critical that all Ashland County residents keep taking social distancing seriously and follow Emergency Order #1 requiring the use of face coverings. As of August 3, 2020, there have been 55,328 confirmed positive cases of COVID-19 in the State of Wisconsin. Statewide, 949 individuals have died due to complications related to COVID-19.

Face coverings, social distancing, and staying home are some of the only ways to prevent the spread of COVID-19 in our community.

We continue to encourage the public to monitor the DHS website for COVID-19 updates. Additional information can be found on the CDC website or call 211 for general COVID-19 related questions.

Face covering advisory

FOR IMMEDIATE RELEASE

July 13, 2020

ASHLAND AND BAYFIELD COUNTY PUBLIC HEALTH RELEASE
NEW ADVISORY REQUIRING FACE COVERINGS

Effective Friday, July 17, 2020 at 8:00 am, Ashland and Bayfield County Public Health are issuing an Emergency Advisory which stipulates that everyone age 5 and older wear a face covering or mask when in any enclosed building where other people, except for members of the person’s own household or living unit could be present. This advisory applies to all of Ashland and Bayfield County.

“Public health research shows that face coverings are critical to slowing the spread of COVID-19. Given the number of infections in our counties and surrounding area, as well as the multitude of visitors coming to our area, we need to all be wearing face coverings every time we leave the house,” stated Elizabeth Szot, Ashland County Health Officer.

“We do not take this advisory lightly. It is on every person in our communities to do better. People should assume that everyone wearing a mask is doing it to protect you and themselves. If someone is not wearing a mask, assume they are genuinely not able to do so,” added Sara Wartman, Bayfield County Health Officer.

Per the advisory, people should wear a face covering that covers their nose and mouth when in public, which includes in businesses, health care settings, waiting in line, and on public transportation. The advisory also indicates that individuals are to wear face coverings when in someone else’s home when you are not of the same family group. Exceptions are made for certain activities such as eating at a restaurant, but during those activities, 6 feet distancing of individuals not from the same household or living unit should be followed at all times. Some people may be exempted if they have a physical, mental, or developmental condition that prevents them from wearing a mask.

Szot states, “masks and distance are really the two most effective means of slowing the spread of COVID-19.” Wartman adds, “given the recent rapid increases in cases in our counties, which has happened even before school and college classes resume this fall- it is imperative we take this step now to try and slow the spread of COVID through our communities.”

If someone is unable to wear a mask or face covering in a business due to a condition or disability, people should ask that business for reasonable accommodation, like a curbside pickup or delivery option. Children ages 2 through 4 are highly encouraged to wear masks in public,

(Continued on Page 21)
children 5 and older are advised to wear masks. If your child is not able to wear a mask, only
bring them to places where it is necessary they be so that your child does not get or spread
COVID-19 to others.

People can cover their faces a variety of ways to comply with this advisory. Simply wear a
bandana, scarf, or neck gaiter around your nose and mouth. Or you may create a cloth face
covering by either sewing one or using a no-sew method on the CDC website. Medical-grade
surgical masks or N95 respirators are not required or necessary for general public use.

In addition to wearing a mask, these actions will help protect yourself and others from COVID-
19:

- **Stay home if you are sick or feel off.**
- **Stay home if you do not need to go out.** Working from home, virtual gatherings,
  and using curbside or delivery ordering are still the safest and best options to protect
  yourself and others.
- **Stay 6 feet from other people.** Respiratory droplets are in the air when other
  people cough, sneeze, talk and breathe. Staying 6 feet from others will lower the
  chances of you coming in contact with the virus from those droplets.
- **Assume you have come in contact with COVID-19 if you go out.** Watch for
  symptoms like fever, cough, shortness of breath, fatigue, body aches, headache, new
  loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and
  diarrhea. If you have these symptoms, call your doctor to be tested.

2020 Manoomin Buy-Back

ATTENTION RICERS

The Mashkiiziibi Natural Resources Department (MNRD) would like to buy green rice that has been harvested from the Kakagon River Complex for reseeding.

GREEN RICE WILL BE PURCHASED AT $3.50/LB.

Rice will be purchased at the Bad River Fish Hatchery from 8:00 am to 4:30 pm on the following dates:

- Wednesday, August 19, 2020 to Friday, August 21, 2020.
- Monday, August 24, 2020 to Friday, August 28, 2020.

Rice will be purchased on the weekends from 1:00 pm to 5:00 pm. Rice will be weighed by an MNRD employee and a voucher will be issued. Sellers will then bring their voucher to the MNRD, during normal business hours, to receive payment.

Help us replenish our rice fields for future generations. Miigwech!

If you have any questions, feel free to contact MNRD at 715-682-7123.
BAD RIVER BAND OF LAKE SUPERIOR
TRIBE OF CHIPPEWA INDIANS

CHIEF BLACKBIRD CENTER
P.O. Box 39 Odonah, Wisconsin 54861

REQUEST FOR PROPOSALS
FOR
Jingle Dress Instructor for Native Connections Program

Bad River Band of Lake Superior Tribe of Chippewa Indians is seeking proposals through solicitation for a jingle dress designer for Native Connections Program, to provide jingle dress teaching and design instruction for youth ages 6-17 from September 1, 2020 to December 18, 2020, or there about.

Instruction will be at the Mashkiizibi Youth Building and virtually online.

Proposals are required to contain the following information:
1. Experience, personal history, and pertinent information to be considered for this contract.
2. Must be able to pass a background investigation through the Bad River tribal process.
3. Evidence of Indian Preference, such as copy of Tribal ID for individual tribal members.

The selected vendor will be responsible for:
1. Teaching the history and significance of jingle dress, encouraging positive self-image, and promoting culture for all participants.
2. Providing a model of healthy lifestyle
3. Maintaining transparent schedules and communication with participants, parents, and staff.

The Bad River Band of Lake Superior Tribe of Chippewa Indians is a federally recognized Indian Tribe organized under Section 16 of the Indian Reorganization Act of 1934, U.S.C. Section 476. This entitles the Tribe to government pricing and exempts the Tribe from state sales and use taxes and from federal excise taxes. Therefore, price quotations should not include such taxes.

This Request for Proposals is open to all qualified, responsive bidders. Indian Preference will apply in the selection process in accordance with the Tribal Employment Rights Ordinance (TERO) or the Indian Preference Act of 1934 (Title 25, USC, Section 47), based on funding source requirements. Questions regarding TERO, and if the TERO fee applies to the RFP, may be directed to the Bad River Band’s Human Resource office at 715-682-7111.

Sealed bids must be labeled BID-Jingle Dress and submitted by 4:30pm on August 14, 2020 to:

Bad River Tribe
Chief Blackbird Center
Attn: Executive Secretary
PO Box 39/72682 Maple St
Odanah, WI 54861

Questions regarding this project can be directed to Lynn Bigboy, Director of Youth Services, lbigboy@badriver-mn.gov, 715-682-7111 ext 1439, Mashkiizibi Youth Building

Bid opening will be scheduled at August 14, 2020 at 4:35pm in the Lunchroom of the Chief Blackbird Center, 1 Maple Lane, Odanah, WI 54861.

Any or all bids may be rejected when in the best interest of the Bad River Tribe.
Tribal policy means daily screening for all employees

COVID-19 Temperature and Screening Policy and Procedure
DAILY SCREENING OF ALL EMPLOYEES

The purpose of this procedure is to define the Bad River Tribe’s policy with respect to daily screening and temperature administration for all Tribal Employees during the current COVID-19 pandemic.

**Defined:**
Pandemic: A disease prevalent over the whole country or the whole world.

**Scope of this Policy:**
This is a mandatory procedure and shall be followed daily by all Bad River Tribal employees upon entering the Tribal facility in which they work.

**The Policy:**
Effective Monday, June 15, 2020, all employees reporting to work will be screened daily for respiratory symptoms and have their body temperature taken as a precautionary measure to reduce the spread of COVID-19.

Every employee will be screened, including having his or her temperature taken, when reporting to work. Employees should report to their work location or a central screening location upon arrival at work and prior to entering any other Bad River Tribal community facilities.

Each employee will be screened privately by a designated screener, using a touchless forehead/temporal artery thermometer. The employee’s temperature and answers to respiratory symptom questions will be documented, and the record will be maintained as an employee data log.

An employee who has a fever at or above 100.0 degrees Fahrenheit or who is experiencing coughing or shortness of breath will be sent home to follow the Return to Work Following Screening Temporary Policy. The employee should monitor his or her symptoms and call a doctor or use telemedicine if concerned about the symptoms.

Each Tribal Department will manage their own screening process. For departments with a population of more than ten (10) employees, the Department Head is responsible for designating and scheduling employees to conduct screening in their location. In cases of facilities housing multiple departments (Blackbird Center, Health & Wellness Center), Department Heads will work together for the designation and scheduling of screener employees.

Employees designated as screeners will be trained by the Health & Wellness Center Medical Team.
MEDIA STATEMENT

Bad River Statement on Prevention of COVID-19 within the Reservation

In a decision May 13, 2020 the State Supreme Court decided almost all of the State’s Safer-at-Home Order, Executive Order 28, is not enforceable. In response Michael Wiggins Jr., Bad River Chairman, issued the following statement:

“The Bad River Tribal Council closed the gaming facility and limited other activities in Odanah, Wis. with the outcome of protecting our tribal community and surrounding areas.

“Regardless of the State Supreme Court decision, the Bad River Band of Lake Superior Chippewa will continue to follow the ‘Safer-at-Home’ guidance with the outcome of protecting the safety and health of the community while relying closely on the guidance of our public health and medical staff.

“We encourage other governments and municipalities or the broader public to voluntarily follow the safer-at-home guidelines to ensure the long-term safety and health of our communities.”

For more information please read the Coronavirus Updates page at http://www.badriver-nsn.gov/news/ and the attached Flyer. Miigwech!
BAD RIVER BAND OF LAKE SUPERIOR
TRIBE OF CHIPPEWA INDIANS

CHIEF BLACKBIRD CENTER
P.O. Box 39 Odanah, Wisconsin 54861

Date: Monday, June 15, 2020
To: All Bad River Employees
From: Mike Wiggins Jr.  Tribal Chairman / Executive Director

Subject: Travel Guidance

As we begin our return to the workplace full-time, I wanted to share key guidelines. To date our Tribe has been very pro-active in preventive practices, which have resulted in zero positive COVID 19 cases on the Bad River Tribal Reservation. For that, I thank each of you. Together we have made a positive and collective difference.

The following guidelines apply to all Bad River Tribal employees when traveling outside the area. You should interpret this as travel to areas other than home and work, and regular weekly routines in your residential area.

- You should discuss all travel plans with your Supervisor in advance of that travel.
- If your work-related travel is essential, your Supervisor may approve your travel. Your Supervisor also may deny that travel request. Approved essential travel will see employees undergoing a rapid test for covid-19 upon return, prior to returning to your job site. The rapid test will determine if self isolation/quarantine is needed. In the event of a positive test as a result of work-related travel, time off will be covered under administrative leave time.
- Non-essential work travel is highly discouraged until further notice.
- For personal, non-essential travel into areas of great activity or higher populations (metro areas, cities, high levels of human activity), you will be required to take a COVID 19 test prior to returning to work. Please call the Bad River Health & Wellness Center ahead to schedule your test. Upon request, the clinic will provide you with a written copy of your test results. Self isolation/quarantine that is necessary due to personal travel will be covered with the employee banked leave. If in the event there was no leave bank, administrative leave could be considered for public health and safety. Communication with supervisors prior to travel is key.
- Depending on each circumstance of travel, you may be expected to self-quarantine upon return for a period of 14 calendar days and use the appropriate paid/unpaid leave.
- If, in the process of tracing and tracking, you have been identified as having been exposed to a positive COVID 19 citizen, you are expected to be COVID 19 tested and quarantined 14 days. Administrative leave would be provided.

Miigwech.
COVID-19 tests a must before returning to work

June 8, 2020

To: All Bad River Employees

From: Ron Teliszczak

Subject: COVID 19 Testing

It was requested that this memo be sent to all employees. During the Tribal Council Meeting on June 3, 2020, the Tribal Council voted unanimously that COVID 19 testing shall take place. That is, before you return to work next week, you must be COVID 19 tested at the Bad River Health & Wellness Center. This is mandatory.

Please call the Health & Wellness Center as soon as possible to schedule your test. The phone number to call is (715) 682-7133. You will not be allowed to return to work without having taken this test.

If you do not take your COVID 19 test, you will have to take annual leave or leave without pay until after you have your test.

Thank you.

Ron Teliszczak

Thursday August 20th 2020 Time:TBD
Pick-up will be located at the:
Bad River Food Distribution Building
(73451 Maple Street Odanah, WI)
NATIONAL NIGHT OUT

Is a national community-building campaign that promotes police-community partnerships

The National Night Out culminates annually on the first Tuesday in August as it enhances the relationship between neighbors and law enforcement while bringing back a true sense of community. Furthermore, it provides a great opportunity to bring police and neighbors together under positive circumstances. Due to the COVID-19 pandemic, we are strongly recommending that all National Night Out 2020 areas celebrate on October 6th, the first Tuesday in October.

The best way to build a safer community is to know your neighbors and your surroundings. National Night Out triumphs over a culture that isolates us from each other and allows us to rediscover our own communities.

The Department of Social & Family Services held a National Night Out awareness event in 2019 that centered on rebuilding a positive relationship with the community and law enforcement. Due to the current pandemic the Zhwenidig Unit of the Department of Social & Family Services will begin to organize the 2020 National Night Out event for Tuesday, October 6, 2020. Watch for more information coming soon.

National Night Out is celebrated by millions of neighbors across thousands of communities. For more information contact: 800.648.3688 | info@natw.org | ©2020 National Night Out. All Rights Reserved

We strongly recommend that all NNO 2020 areas celebrate on October 6th due to COVID-19.
Food Sovereignty Program seeks volunteers

The Bad River Food Sovereignty Program would like to re-start its ad hoc Committee.

If you are interested in volunteering to serve on this committee please sign up by contacting the Food Sov. office at 715-682-7111, ext. 1611.

With the COVID 19 Pandemic still a concern, we will be meeting outside the Food Sov. building.

We will be scheduling at least two (2) meetings in the month of August 2020. If you haven’t signed up but want to be on the Committee just show up on the date and time for the meeting. Will post flyers with meeting dates.

We are looking for community members who are interested in gardening, growing their own food, in aiding the Bad River Community in becoming more self-sufficient in terms of having access to nutritious foods.

AND, we welcome any ideas, projects relating to food, traditional harvests or any such related topic/issues.

Please come join us in this important effort to make nutritious foods available in our community. AND, help our community members lead a healthier life.

What Tribal Members need to know about COVID-19

What is coronavirus disease 2019 (COVID-19)?
Coronaviruses are a type of virus (germ) that can cause cold-like symptoms and sometimes serious problems with lungs and breathing. COVID-19 is a novel (new) coronavirus.

What are the symptoms of COVID-19?
Mild to severe respiratory illness, or problems with lungs and breathing. Symptoms include:
- Cough or shortness of breath.
Or at least two of these symptoms:
- Fever, chills, repeated shaking with chills, muscle pain, headache, sore throat, or new loss of taste or smell.

How does COVID-19 spread?
Person to person by coughing, sneezing, or personal contact like touching or shaking hands. Someone with mild symptoms may spread the disease without knowing they are sick.

Who is most at risk?
Anyone can get COVID-19. Those at risk of severe illness include:
- Elders and adults over 60 years of age,
- People with heart disease, lung disease, or diabetes.

How can I protect myself and my family?
Stay at home. “Social distancing” is recommended. This means keeping your family at home and away from others who may be sick.
- If you must go out, wear a mask or bandana and try to stay 6 feet away from others.
- Avoid gatherings with other people.
- Avoid touching your eyes, nose, and mouth.
- Do not shake hands, hug, or touch others.
- Wash your hands often with soap and water for at least 20 seconds or use hand sanitizer.

If someone gets sick, what can they do?
- If someone thinks they have been around someone with COVID-19 and they get a fever and symptoms such as cough or trouble breathing, they should call their healthcare provider or local Indian Health Service unit for medical advice.
- In an emergency, call 911.
- People who are mildly sick with COVID-19 do not need to see a healthcare provider and are able to recover at home.
- Cover coughs and sneezes with a tissue, then throw the tissue in the trash and wash hands.
- Stay home and away from others for 14 days to avoid getting others sick.
- Caregivers should keep sick family members away from others in the home and clean and disinfect surfaces and items that are touched often, like door handles, sink handles, toilets, remote controls, etc.

Is there a vaccine or treatment?
There is no vaccine. The best way to reduce the risk of getting sick with COVID-19 is to practice social distancing and healthy habits like washing hands regularly.
There is no specific treatment for COVID-19, but medical care can help relieve symptoms. If you are sick, call your healthcare provider for instructions.

Have there been cases of COVID-19 in our state?
Yes, there have been cases in all 50 states.

COVID-19

July 30, 2020, #MaskUpWisconsin

Governor issues new executive order

Today Governor Evers announced a new executive order mandating face coverings indoors or in enclosed spaces, other than when at home. We know that face coverings are an effective tool in fighting COVID-19, and we encourage you to do your part in protecting the health and safety of your fellow Wisconsinites by wearing a face covering and encouraging others to do so.

Over the last month, Wisconsin has seen a surge in cases. This increase in cases cuts across the entire state with a significant majority of counties at high COVID-19 activity levels. Statewide action is necessary to protect the health and well-being of Wisconsinites.

Please see the press release for more details.

61 of 72 counties are experiencing high COVID-19 activity.

That's 96% of the state's population.

COVID-19 is spreading. You can stop it.

#MaskUpWisconsin

ATTENTION

The Enrollment Department is asking all Tribal Members to update their mailing addresses. You may call in your current address to 715-682-7111 ext: 1525 or Email at Enrollment@badriver-nsn.gov

Thank You 😊
COVID-19 is Still in Our Communities

PROTECT YOURSELF AND OTHERS
*The order is gone, but the virus is not.*

- Disinfect Surfaces
- Limit Travel Outside of Home
- Stay Home When Sick
- Follow Local Orders
- Avoid Mass Gatherings
- Stay 6 Feet Apart

WASH YOUR HANDS

Wash your hands with soap and running water when are visibly dirty.

Clean your hands even when not visibly dirty by using alcohol-based hand-sanitizer or soap and water.

- After coughing or sneezing
- Before, during and after you prepare food
- Before eating
- When caring for the sick
- After handling animals or animal waste
- After using the toilet

If your business is allowed to open visit: https://wcedc.org/reopen-guidelines/
STOP THE SPREAD OF GERMS DURING COVID-19

When in public, wear a cloth face covering over your nose and mouth.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash and wash your hands.

Clean and disinfect frequently touched objects and surfaces.

Stay home when you are sick and expect to get medical care.

Don’t touch your eyes, nose, and mouth.

Wash your hands often with soap and water for at least 20 seconds.

OF COURSE IT’S HARD
IT’S SUPPOSED TO BE HARD
IF IT WAS EASY, EVERYONE WOULD DO IT. HARD IS WHAT MAKES IT GREAT
WANTED

Certified Child Care Providers are needed in our community!

Do you love children?  
Do you want to work from home?  
Do you want to be self-employed and work your own hours?  
Can you pass a background check?

If you are interested in learning on how to become a successful, certified, stay at home Child Care Provider; then please contact Lynn Wiggins to learn more at 715-682-7127 ext. 1401

Our children and families need your help!!
FRUIT & VEGETABLES

Diets rich in a variety of fruit and vegetables can help you get the nutrients your body needs for growth and development.

Consume 4-5 servings of both fruit and vegetables daily based on a 2,000 calorie diet.

Consuming fruit and vegetables can improve your health! Eating more fruit and vegetables may lower blood pressure, reduce your risk for heart disease, and help protect against certain types of cancers.

NOTICE
GRAVEL PURCHASE FOR 2020

The Bad River Roads Department will be offering crushed gravel for individual purchase this year.

There is also a limited amount of fill dirt available. Fill can be found in the field directly north of the casino. If anyone would like to haul this themselves please feel free to take as much as you like. **The Roads Program will not be delivering fill dirt.**

Limit of 5 loads per residence (25 yards) of crushed gravel.

PRICES:

Crushed Gravel per 5 yard load $19.00 per yard = $95.00 per load (5 load max.)

The deadline for ordering will be September 18, 2020.

All payments should be made at the Bad River Tribal Accounting Office. Please make sure you leave a contact name and number when payment is made.

Deliveries will begin in late June to early July or as soon as possible thereafter. Repairs to roadways will take precedence and private order deliveries will not begin until road repairs are caught up.

Any question please contact:

*Physicians Caring for Texans*
Boozhoo, from the Bad River Health & Wellness AODA Program

I’d like to share a few helpful suggestions to help you through the day

While we are back at work we are remembering to social distance, wear masks, wash hands, and to include our relatives/family/friends that are home and in the community. Miigwetch for reading and please share

Possible things to do while at home. Possible things to help others to prevent substance abuse.

- Make crafts, beadwork, knitting, art work, planting, gardening, etc.
- Meditate, make time for prayer and thought
- Listen to music, learn to play an instrument, sing, hum
- Whistle (remember to whistle while you work)
- Daily reading, read positive quotes, affirmations
- Do breathing exercises, breath in, breath out, allow your lungs to do the work
- Spend time with positive people in positive environments
- Self-prayer, self-smudging, asema offering

Be mindful of negative words and thoughts. Don’t allow words to control or keep you feeling down. We have been told tomorrow or moments of the future is unknown, try and lift your spirit, we only have one chance for this life. Somedays we can only handle day by day, or moment to moment. Make the best of it!

If I can help or find someone, you’re comfortable with please call

Penny Charette: Cultural Liaison/AODA Support Staff @ 715-682-7133 ext. 4353

If you struggling with alcohol/substance abuse, the Bad River AODA Program is offering a virtual on-line meeting, and social distancing office visits

We can help you find a sponsor if your struggling

If you would like to talk or meet with an AODA Counselor, or Peer Specialist, please call the Bad River AODA Program @ 715-682-7863 to set up an appointment

We are in this together
Education Department remains open to offer help during COVID-19

The Bad River Education Department remains open during the COVID-19 pandemic. The department can be contacted at the information listed here for all of your higher education needs. If you are a current student who will be continuing college in the Fall, please send email for a scholarship application and any questions you might have. We are here to help!
