Ashland, WI 54806-4272

COVID-19 Daily Update

September 28, 2020

NOTICE: On Monday September 28, 2020 the Bad River Health & Wellness Center (BRHWC) Administration continued the plan to test BRHWC staff for Covid-19. Testing plan addressed review of test results, and referral to the appropriate public health agency for follow up if necessary and limiting staff access to BRHWC space until review of test results. This testing was conducted first thing before any patients were scheduled for appointments. The result of this testing revealed one (1) member of the BRHWC staff had tested positive for Covid-19. That individual was immediately sent home to self-isolate and all CDC recommended steps were implemented for the mitigation of any additional risk to staff and patients. BRHWC Administration and Public Health providers are working diligently with tribal officials/leaders as well with BRHWC staff to ensure all necessary steps (which includes contact tracing) are being taken to reduce the risk of this situation, including on-going testing/training of all BRHWC staff.

Due to these updated circumstances, the Bad River Health and Wellness Center will close at noon on Monday September 28th and will reopen on Monday October 5th at 1pm. During this time the clinic will be doing a precautionary deep cleaning. Bad River Health and Wellness Center Pharmacy will remain open.
