WHAT TO DO IF YOU TEST POSITIVE FOR COVID-19

If you test positive, you must self-isolate immediately. Public health will contact you to begin contact tracing and case investigation to help identify and provide support to people who many have been infected by being exposed to a positive case.

- Stay home except to get medical care
- Monitor your symptoms. Seek medical care immediately if you are having troubling breathing.
- Stay in a separate room from other household members, if possible
- Use a separate bathroom, if possible
- Avoid contact with other members of the household and pets
- Don't share personal household items, like cups, towels, and utensils
- Wear a mask when around other people, if you are able to.
