REMINDERS:

It is important to remember now that Wisconsin is listed as a COVID-19 hotspot, **that several hospitals throughout the state have reached their capacity.** What this means is that patients who need hospitalization may be transferred further away from their homes. We need to do our part to slow the spread and ensure that the hospital systems do not become overwhelmed and unable to accept or transfer patients. As a community, we must remember to wash your hands frequently, wear a mask when you have to go out or are in public, **SHELTER at HOME**, and social distance. We are stronger together, and together we can slow the spread of this virus.

Stay Safe and Be Well
