REMINDERS:

One way to ensure that you and your family are prepared should someone in your household become ill with COVID-19 or be named as a direct contact of someone who is positive for COVID-19 is to have a family action plan in place. This can include things such as transportation, who may be available to watch your children, drop off necessities if needed, and ensuring you have an adequate supply of your medications on hand. If you have questions, you can always contact Bad River Public Health.
