REMINDERS:

Children may worry about themselves, their family, and friends getting ill with COVID-19. Parents, family members, school staff, and other trusted adults can play an important role in helping children make sense of what they hear in a way that is honest, accurate, and minimizes anxiety or fear. When talking with children, remain calm, reassure them, make yourself available to talk and listen, pay attention to what they see or hear, and teach them every day preventative actions to protect themselves, your family, and the community.

REMEMBER TO GET YOUR FLU SHOT!

Stay Safe and Be Well
