Cleaning and Disinfecting Surfaces

You can reduce your risk of COVID-19 by cleaning and disinfecting frequently touched items and surfaces every day. These items include remotes, tables, counters, light switches, doorknobs, handles, toilets, and sinks.

Wear disposable gloves to clean and disinfect. If you can see that the item is dirty, wash first with soap and water or another general cleaner. Then, use a household disinfectant to kill germs.

Follow manufacturer's instructions for application and proper ventilation to safely use the product.

For phones or other electronics, follow the manufacturer's instructions for cleaning and disinfecting. If no instructions, use alcohol-based wipes or sprays containing at least 70% alcohol. Dry surface thoroughly.

REMEMBER TO GET YOUR FLU SHOT!

Stay Safe and Be Well
