COVID-19 Readiness

Make a household plan – learn how to prepare and to take quick action if someone gets sick.

Older adults and people with chronic medical conditions are at greater risk. Take extra steps to protect them.

Think about what you will do if or there are changes to your work schedule.

Remember to always practice good health habits, such as frequently washing hands with soap and water, staying home when sick and covering coughs and sneezes.

REMEMBER TO GET YOUR FLU SHOT!

Stay Safe and Be Well
