COVID-19 Vaccine Weekly Update

February 10, 2021 1:30 a.m.

Updated Information:

Total Number of Vaccines Given	530
Next Vaccination Clinics	02/12/21 02/16/21
What tier will we be vaccinating	Booster doses (2 nd shot) Working into Tier 1C (starting with those ages 65 and older)

A staff member from the clinic **will call you** to schedule your appointment.

COVID-19 Vaccine Facts:

Most of these vaccines are given in two shots, one at a time and spaced apart. The first shot gets your body ready. **The second shot is given at least three weeks later to make sure you have full protection. If you are told you need two shots, make sure that you get both of them.** The vaccines may work in slightly different ways, but all types of the vaccines will help protect you.

The vaccines may cause side effects in some people, like sore muscles, feeling tired, or mild fever. These reactions mean the vaccine is working to help teach your body how to fight COVID-19 if you are exposed. For most people, these side effects will last no longer than a day or two.

If you have questions, you may contact:

Randy Samuelson, Clinic Administrator
Robert Houle, Assistant Clinic Administrator
