

# COVID-19 Vaccine Comparison

*Pfizer-BioNTech, Moderna, and Johnson & Johnson Vaccines*

	<b><u>Pfizer-BioNTech</u></b>	<b><u>Moderna</u></b>	<b><u>Johnson &amp; Johnson</u></b>
<b>Age</b>	<b>16+</b> 16 years or older	<b>18+</b> 18 years or older	<b>18+</b> 18 years or older
<b>Doses</b>	 2 dose (2nd dose given 21 days later) • <b>Must receive the same brand for 2nd dose</b>	 2 dose (2nd dose given 28 days later) • <b>Must receive the same brand for 2nd dose</b>	 1 dose
<b>Common Side Effects</b>	 <ul style="list-style-type: none"> <li>• Chills</li> <li>• Tiredness</li> <li>• Headache</li> <li>• Pain*</li> <li>• Swelling*</li> <li>• Redness*</li> </ul> <p>*At the injection site</p> <p><i>Other side effects listed in the EUA: muscle and joint pain, feeling unwell, swollen lymph nodes, non-severe allergic reactions, severe allergic reactions.</i></p>	 <ul style="list-style-type: none"> <li>• Chills</li> <li>• Tiredness</li> <li>• Headache</li> <li>• Pain*</li> <li>• Tenderness*</li> <li>• Swelling*</li> <li>• Redness*</li> </ul> <p>*At the injection site</p> <p><i>Other side effects listed in the EUA: muscle and joint pain, vomiting, fever, and remote chance of severe allergic reaction.</i></p>	 <ul style="list-style-type: none"> <li>• Tiredness</li> <li>• Headache</li> <li>• Nausea</li> <li>• Pain*</li> <li>• Swelling*</li> <li>• Redness*</li> </ul> <p>*At the injection site</p> <p><i>Other side effects listed in the EUA: muscle aches, fever, and remote chance of severe allergic reaction.</i></p>
<b>Infection</b>	 95% effective at protecting against any symptomatic infection.	 94.1% effective at protecting against any symptomatic infection.	 85% effective against severe disease and 66% effective against moderate to severe disease. NOTE: Variants in circulation during the J&J trials
<b>When you Shouldn't Get the Vaccine</b>	 <ul style="list-style-type: none"> <li>• Have a severe allergic reaction after a previous dose of the vaccine.</li> <li>• Have a severe allergic reaction to any of the ingredients.</li> </ul> <p><i>Having one of the above listed common side effects is not a severe allergic reaction.</i></p>	 <ul style="list-style-type: none"> <li>• Have a severe allergic reaction after a previous dose of the vaccine.</li> <li>• Have a severe allergic reaction to any of the ingredients.</li> </ul> <p><i>Having one of the above listed common side effects is not a severe allergic reaction.</i></p>	 Have a severe allergic reaction to any of the ingredients. <p><i>Having one of the above listed common side effects is not a severe allergic reaction.</i></p>
<b>Vaccine Type</b>	 mRNA Vaccine	 mRNA Vaccine	 Viral Vector Vaccine

**Local public health departments do not have control on what type of vaccine they receive.**

**People are encouraged to get whichever vaccine is available to them. Johnson and Johnson, Moderna, and Pfizer are all highly effective vaccines that prevent illness and death from COVID-19.**
