

## PUBLIC NOTICE

### Clean Water Act, Section 401 Certification – Regional General Permits(RGP)

The Army Corps of Engineers is wanting to update the Regional General Permit.

#### Summary

The ACOE is updating the Regional General Permit and would like input on the permits and the conditions that they are attaching to the permits. The proposed categories of activities to be authorized by the RGPs for which certification is requested include: Bank Stabilization and Habitat Improvement, Beach Creation and Nourishment, Beach Raking, Minor Discharges, Piers and Docks, Transportation, Utility, and Wildlife Ponds.

If you would like more information on the permits please contact Lorrie Salawater at 715-979-1370, or [WaterReg@badriver-nsn.gov](mailto:WaterReg@badriver-nsn.gov)

**In accordance with Section 401 of the Clean Water Act (CWA), the Bad River Band of Lake Superior Tribe of Chippewa Indians is evaluating the submitted materials to determine if there is reasonable assurance—with conditions attached—that the activities associated with the Army Corps of Engineers’ authorizations will be consistent with relevant water quality considerations.**

**The Tribe seeks comments on its proposed CWA Section 401 Certification of the Army Corps’ authorization for this project.** All comments are considered during the project review. Additional information may be obtained by contacting the Water Regulatory Specialist at (715) 979-1370 or [WaterReg@badriver-nsn.gov](mailto:WaterReg@badriver-nsn.gov). Written comments may be emailed or sent by US Mail to:
