Event/Awareness Day/Topic: Severe Weather Awareness Week: Be Alert

Date: April 8-12

Caption:

To kick off Severe Weather Awareness Week, know what hazards occur in your area and have more than one way to receive weather alerts and warnings! ⚠️

- 📱 Sign up for your local warning alert system
- 📻 Listen to NOAA Weather Radio
- 📺 Tune into local radio or news
- 🔊 Be alert for outdoor warning sirens

Your Safe Place from **Tornadoes**

Tornadoes can be extremely dangerous. Safe places are storm shelters and basements, but if not available, an interior room without windows can also be protective. If you receive a tornado warning, take shelter immediately!
