---

**Summary:** Under the direct supervision of the Pharmacy Manager, the Pharmacist is responsible for direct outpatient pharmacy services including; provision of quality pharmaceutical care to patients of the BRHWC and other eligible entities; oversight and administration of purchasing programs; and supervision of pharmacy staff. The Pharmacist may advise physicians and other health practitioners on the selection, dosage, interactions, and side effects of medications.

**Essential Duties and Responsibilities** include the following. Other duties may be assigned.

- Prepare and dispense medications or supervise the preparation of medications by the Pharmacy Technicians or Aides
- Provides pharmacy consulting services with empathy to patients regarding the effective usage of medications and awareness of drug interactions
- Performs pharmacist tasks including compounding, drug therapy reviews, verification, and medication management
- Responsible for ensuring the proper compounding, dispensation, review, and verification of prescribed medications within regulatory guidelines
- Engages patients by greeting them and offering assistance with products and services
- Connects with patients by anticipating needs and proactively offering services
- Demonstrates superior written and verbal interpersonal and communication skills sufficient to effectively create relationships to support patients, families, staff, providers, and administrative personnel including active listening; honesty; ability to clearly convey information, and openness to thoughts and ideas expressed by others
- Reinforces the direction of the Pharmacy Manager in staff performance by coaching, and providing constructive feedback, monitoring customer service, and fostering team member development
- May supervise staff in the absence of the Pharmacy Manager
- Supports the maintenance of pharmacy inventories for accuracy and integrity
- Monitors drug therapy for patient compliance, interactions, adverse effects, and therapeutic efficiency.
- Assists with supply purchases to ensure the most cost-effective products are procured
- Follows up with insurance companies and medical providers and participates in 3rd-party audit
- Follow-up with medical providers to clarify prescribed medications, dosages, refills, interactions, and allergies to suggest alternative medications, and answer medical provider questions
- Assists with the efforts for the BRHWC to become a Wisconsin State Licensed Retail Pharmacy
- Assists activities for Drug Pricing Programs and Supply Service Centers
- Helps ensure control and security of narcotics and other controlled substances.
- Help precept pharmacy students and supervise summer youth workers
- Provide appropriate patient drug counseling
- Assist with drafting updating, and implementing Policies/Procedures as delegated
- Opportunity may be available to move into ambulatory clinical services with Collaborative Practice Agreements

- Communicate directly and professionally with providers to share information and gain an understanding on prescription discrepancy
- Help identify gaps in medication patient care and implement services among the team Utilize and assist patients with interdepartmental and intradepartmental resources
- Will participate in committees, task forces, and other meeting groups as assigned
- Contributes to and attends the Pharmacy and Therapeutics Task Force Meetings to ensure optimum therapeutic outcomes through improved medication use and to provide education to BRHWC providers.
- Interprets policies to ensure patient needs are met in an effective and efficient manner
- Provide guidance on federal, state, and local laws and regulations for pharmaceuticals
- Establishes and maintains collegial relationships with department staff and managers at the BRHWC
- Consult with staff, physicians, and/or director as needed to resolve patient care and departmental issues
- Provides care within the context of excellent service to patients, families, and co-workers; takes responsibility for anticipating, understanding, and satisfying needs while striving to exceed expectations
- Helps ensure patient care and work environments demonstrate safety standards and decreases the likelihood of error or harm to patients
- Collaborates with staff to monitor patient outcomes; set quality priorities; recommend and implement professional improvements and initiatives and implement practice-based safety initiatives
- Demonstrates teamwork in the building of positive work relationships with staff, providers, and co-workers while working collaboratively to achieve patient care and/or organizational goals
- Demonstrates competence in organizational quality
- Improvement efforts to improve patient care outcomes and streamline work processes including data collection/analysis
- Recommends best practices whenever possible using trending and available benchmarks
- Participates and assists in community events as requested
- Other duties as assigned

**Qualification Requirements:** To perform this job successfully, an individual must be able to perform each essential duty satisfactorily and professionally. The requirements listed are representative of the knowledge, skills, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform essential functions.
