

ATTENTION!

BIRCH PRODUCTS AVAILABLE

Mashkiiziibii Natural Resources Department (MNRD) is announcing the availability of some small birch products piled by the Community Center. Enbridge Energy has requested approval to install erosion-management structures called “log jacks” on up to 562 linear feet of the Bad River riverbank. The birch cutting moratorium is still in effect within the reservation; Thus, for this project we’ve asked them to set aside wiigwaasatig for Bad River Tribal citizens to use for cultural purposes.

More information about Enbridge’s Log Jack Project is available at

<https://www.badriver-nsn.gov/news/>

Please direct any questions about birch to Gena Abramson, MNRD Forester. 715-685-8929 or Foresttech@badriver-nsn.gov,

Please direct any questions about log jack project to Naomi Tillison, MNRD Director at 715-292-0197 or

nrddirector@badriver-nsn.gov

Miigwech!
